

Viral Check Surface & Air Check Products

SARS-CoV-2 (COVID-19)

Enviral Tech developed the Viral Check family of products to provide a fast and effective way to test environmental samples for coronavirus. Currently, we sell both the Surface Check and Air Check products to test for the SARS-CoV-2 virus in your business environment.

We use the same sensitive detection technology used for human tests.

The SARS-CoV-2 emergency

COVID-19 disease transmission through contaminated surfaces is a serious health risk. Studies have shown that SARS-CoV-2 is stable for several hours to days in aerosols and on surfaces, indicating that good disinfection techniques are critical to stop transmission through the surfaces we touch.

The ability to detect this dangerous virus in the air and on surfaces is of extreme importance in order to confirm proper disinfection measures.

VIRAL CHECK SURFACE & AIR CHECK PRODUCTS

Available for

- Long-term care facilities
- Airlines
- Offices
- Manufacturing plants
- Food preparation sites & supermarkets
- Public transportation
- Restaurants, theaters & shopping malls
- Sports centers, and
- Any other facilities that should be tested to confirm they are ready to be Open for Business and are not contaminated with the coronavirus.

What we can do

Testing

Confirmation of your cleaning protocols by testing for residual virus is a key step in preparing to open your business without risking the safety and health of clients and employees.

Testing Process

1. Sampling — Enviral Tech provides kits for either surface sampling or air sampling for a single room or an entire facility. These kits include all materials necessary for collection, transport, and preservation of samples.

2. Analysis — Samples are tested in our own laboratories for the presence of virus. We guarantee a 24 hour turnaround time from the moment the samples arrive at our facilities.

Monitoring

Periodic monitoring provides a quality check of your disinfection protocols and provides peace of mind to the people who are using your spaces.

Results

Enviral Tech delivers your results in three forms:

- A report of all of the results
- When appropriate,
 - A paper Certificate of Testing that indicates that coronavirus has not been detected in your facility
 - A digital “No coronavirus detected” badge for your website
